"A path on the way to rediscovering that we come from Enlightenment"

"A path on the way to rediscovering that we come from Enlightenment"

SUSHUMNA YOGA™
conscious spiritual wellbeing

"Remember this Dear Ones: that before you arrived here there was a planning session, where you planned appropriate Life and appropriate Death. What you see as horrible, tragic or negative things are planned by yourself.

This includes accidental death, even of children. You see when you are not here, the planning sessions are done with Honor and Love and the wisdom of God consciousness. A child may agree to come in, and remain a child, only to be terminated, appropriately, for the parents' karma. You see there is much of this that takes place. Therefore there are no accidents, and all death..... even that of groups is appropriate.....known by yourselves and your Higher Selves, especially."

[Channeled writings of Kryon]

Sushumna means the central nadi or energy channel associated with the River Saraswati. This runs from the base of the spine to the top of the head and when activated the kundalini shakti uncoils at the base of the spine and shoots up to the top of the head through our energy channels or chakras. This represents our evolution from self-absorption towards realization of our own innate unlimited potential. We rise beyond the ordinary realm of birth and death to the level of divinity.

Sushumna Yoga Teacher Training is fully recognized and accredited by Yoga Alliance USA, taught by internationally highly respected teachers in their field. If you are earnest about taking on board a methodical journey to becoming a teacher, looking for new ways to enhance your teaching skills or even just wish to develop more of your own personal practice, our teacher training program will provide you with the fundamental tools to go deeper in your practice and teach accurately in your own unique way, both grounded in self-awareness and experiential knowledge.
